LOADING THE DATASET:

The screenshot displays the IBM Cognos Analytics web application interface. The top navigation bar includes the logo, a search bar, and user profile information. Below the navigation bar, there are several tabs: 'Get started' and 'Recent'. The 'Recent' tab is active, showing a list of datasets. The list has columns for 'Name', 'Location', 'Type', and 'Last Accessed'. The datasets listed are 'train_data_dictionary.csv', 'sample_sub.csv', 'train_data.csv', and 'test_data.csv', all of which are 'Uploaded file' types. The 'Assignment-1_DataExp' dataset is also visible at the bottom of the list, categorized as an 'Exploration'. The interface is clean and modern, with a dark theme for the navigation bar and a light theme for the content area.
